**Scoring for Bulleye- Thanks To  
Shaun Finney for the Forumla**

100 max points available  
add up the shooters score

100 minus their score = score down  
Miss equals -10pts

1/2 second penalty for every point down from 100, as  
the stage time for scoring purposes.

Then you just add all the times for each  
stage, lowest time overall wins.

Example :  
100 max points  
shooter gets 70 points  
100-70=30

30 \* .5 secs= 15 second stage
